EDUCATION

Zero to Mastery Academy
Fullstack Bootcamp
2022 - 2023

IMM Graduate School
Bachelor in Business Administration
2013 - 2016

CTU Training Solutions
Certificate in Project Management
2012 - 2013

PROFESSIONAL EXPERIENCE

Lead Developer @ TÜV Rheinland
Jan 2025 - June 2026 | Madrid, Spain

Led the greenfield rebuild & launch of TÜV's enterprise web platform across global markets;
- **Led 10+ engineers** across internal and external teams, driving standards and delivery.
- Architected the **Storybook** design-system & **FirstSpirit** CMS-driven rendering.
- Owned quality of hundreds of components via **code review, testing & design refinement**.
- Drove **DevOps & cloud delivery** across Azure, Akamai, Kubernetes & Redis.
- Modernised day-to-day engineering workflows through **AI-assisted development**.

Sr Fullstack Developer @ TÜV Rheinland
June 2024 - Jan 2025 | Madrid, Spain

Joined a large legacy web platform spanning custom CMS integrations and static generation;
- Spearheaded **Next.js & TypeScript** architecture shift, securing senior stakeholder buy-in.
- Drove adoption of **Git, CI/CD & Agile** practices required to deliver the new stack.
- Built & reviewed early **React components**, setting patterns later scaled platform-wide.
- Supported migration from the legacy on-prem monolith to **Azure Cloud**.

Team Lead @ Apple *(cognizant)*
Jan 2022 - Jan 2023 | Madrid, Spain

Promoted into team leadership while remaining hands-on in quality engineering;
- **Co-led three teams** across multiple testing workstreams.
- Kept teams on track, clearing blockers, upholding standards & **supported onboarding**.
- Coordinated delivery, performance feedback and **cross-team coordination**.

Quality Engineer @ Apple *(cognizant)*
Sep 2021 - Jan 2023 | Madrid, Spain

Worked closely with a **widely used AI/ML assistant**, building automated testing suites;
- Supported ML training, API testing & regression automation using **Python, Swift & Xcode**.
- Maintained **E2E test suites**, triaging failures & producing detailed defect reports.

Frontend Developer @ Mashauri Ltd.
Jun 2019 - Feb 2020 | United Kingdom

Joined an EdTech startup to support a Moodle-based platform & frontend modernisation;
- Maintained **React interfaces** linked with Moodle, an open-source LMS.
- Automated recurring CRUD tasks using **Python & MySQL**.

Jr Frontend Developer @ Out-of-the-Cube
Oct 2018 - June 2019 | South Africa

Built frontend features for an online art marketplace, including responsive artist storefronts integrated with e-commerce and CMS using jQuery, Bootstrap & Sass.

WordPress Developer @ Freelance
Jan 2015 - Jan 2019 | South Africa

Built and maintained WordPress sites for various hospitality clients, integrating booking platforms and UI improvements while supporting day-to-day site administration.

ORGANIZATIONS

Zero to Mastery Academy
June 2023 - present

Recognized for active engagement, ***appointed*** as a star-mentor to guide students. Remain an active member in the community.

PERSONAL PROJECTS

Flatmate Finder
Vite • Vitest • TypeScript • Tailwind • Firebase • TanStack Query • Zod • React Hook Form

A real-world application built to streamline flatmate selection, featuring a Tinder-style swipe workflow for asynchronously reviewing applicants.

Cross-Platform Dotfiles
Linux • macOS • Windows • WSL2 • Neovim • Lua • Bash • Go • Git

Built after people kept asking about my setup, DeVim shares the dotfiles, tooling and Neovim configs behind my daily development environment across Linux, macOS & Windows.
